	Examiner Tae H. Yoon	Art Unit 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 October 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Art Unit: 1796

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6, 8, 9, 11 and 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

This is NEW MATTER rejection since the recited "to 13 kPa" in line 6 of claim 1 does not have support in originally filed specification. Applicant states various vapor pressures for alcohol in response without providing any supporting document thereof. Also, a vapor pressure of 12.8 kPa for methanol does not support the instant 13 kPa.

The above rejection is maintained since applicant's response is non-responsive.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6, 8, 9, 11 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ota et al (US 6,916,862) in view of JP 2000043465 A and Kanbayashi et al (US 6,114,412), and further in view of Kobayashi et al (US 5,678,942) and Hattori et al (US 2005/0096410 A1).

Rejection is maintained for reason of record with following response.

Even though Hattori reference (US 2005/0096410 A1) was filed on 10/8/2003, it was a valid available reference at time of the last office action since applicant failed to submit a certified copy of English translation of the instant Foreign priority document (JP 2003-084878 of March 26, 2003). Thus, the effective filing date of the instant application is March 23, 2004. Applicant's statement of common ownership in the response now could remove said Hattori reference (US 2005/0096410 A1) as a valid reference. However, use of such prior art as a teaching reference (the vapor pressure of lower alcohols has never been changed since their discovery by humans hundreds years ago if not thousands years ago. Another words, the instantly recited vapor pressure is an inherent property of lower alcohols taught by Ota et al, and Hattori reference is teaching or facts reference under the principle of *In re Wilson*, 50 CCPA 773, 311 F. 2d 266, 135 USPQ 442 (1962)). is permitted under case-law, *In re Langer*, 183 USPQ 288 (C.C.P.A. 1974), 503 F2d 1380.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
